Unipoint Controller

Honeywell

The Unipoint, a simple DIN rail mounted controller

Unipoint DIN Controller

Typical Applications

- · Small and medium integrated systems
- · Custom control cabinets and panels
- · Unmanned equipment rooms
- Roiler houses
- · HVAC systems
- Analyser houses
- Car parks
- Crane cabs
- Laboratories

User Friendly

- · Ultra-clear backlit display
- · System status codes
- Built-in audiovisual alarms
- · Intuitive menu system
- Simple pushbutton operation
- Remote accept, reset and inhibit inputs

Easy to Install

- . TS35 ('top hat') DIN rail mounting
- · Removable terminal connectors
- · Easy access to all terminals
- · Additional units clip together

Comprehensive Operation

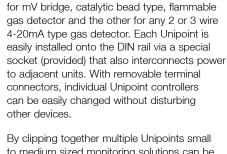

- 3 wire mV bridge, 2 and 3-wire 4-20mA inputs
- DC operation
- 3 x alarm relays
- 1 x system fault relay
- Field inhibit input (mA versions)

Flexible Operation

- Fully user programmable scale, units and calibration
- Relays configurable as energised, de-energised, latching or non-latching, alarm relay on/off delay
- · Compatible with a wide range of gas detectors

The Unipoint is a simple DIN rail mounted controller offering integrators a flexible and low cost solution to incorporate flammable, toxic or Oxygen gas detection into their control systems.

Unipoint can be easily installed into any plastic or metal enclosure for use indoor or outdoors and even in potentially explosive atmospheres. With the addition of one of the Honeywell Analytic's range of flammable, toxic or Oxygen detectors, systems may be configured to monitor gases in a wide range of applications from car parks and boiler houses to analyser shelters or crane cabs in offshore facilities.

Two versions of Unipoint are available; one

By clipping together multiple Unipoints small to medium sized monitoring solutions can be realised. Each unit includes built-in audiovisual alarms, three programmable alarm relays and a fault relay. Gas concentration and system status is displayed on the backlit LCD and each controller is fully user programmable via an intuitive, push button operated menu system. Configuration menus can be password protected to prevent unauthorised access. In addition remote inputs allow accept, reset and inhibit of alarms without the need to open the enclosure that the Unipoint is mounted in.

Unipoint's uncomplicated design makes it ideal for applications where a simple method of integrating gas detectors into a 3rd party control system is required or as part of a small standalone gas detection solution.

All Honeywell Analytics gas detectors and third party detectors may be used with Unipoint subject to overall power requirements.

Max number of controllers on one power rail

| Detector type | Max number of controllers |
|------------------|---------------------------|
| 3-wire mV | 8 |
| 2-wire mA | 8 |
| 3-wire mA | 4 |

wiring of power rail in parallel allows larger systems to be constructed

Electrical

| Type of Detector | Output to Detector | Recommended Detector |
|----------------------|--|--|
| 2-wire 4-20mA | Controller Input (18-32VDC)-1.5VDC*, 30mA (max) Sense resistor 33 Ohms | Signalpoint or Sensepoint Toxic and Oxygen |
| 3-wire 4-20mA source | Controller Input (18-32 VDC)-1.5VDC*, 0.5A (max) Sense resistor 33 Ohms | Sensepoint XCD |
| 3-wire mV bridge | 2.4-8.6V, 200mA constant current. Max cable loop resistance 28 Ohms. | Signalpoint or Sensepoint Flammable |

^{*}The detector supply voltage is 1.5Vdc less than the supply to the controller

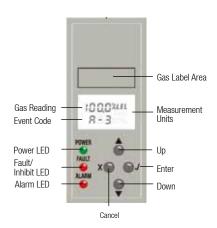

Controller Power Consumption

| Unipoint Version | Controller Status | | Relays | |
|------------------|---|-----------|--------------|-------------------|
| | | Fault | Alarm | |
| | Normal operation, no faults, no alarms. Zero cable resistance | Energised | De-energised | 2.4W ¹ |
| mV | Normal operation, no faults, no alarms. Max loop cable resistance (28 ohms) | Energised | De-energised | 3.6W ¹ |
| | All alarms, no faults. Max cable resistance (28 ohms) | Energised | Energised | 4.8W ¹ |
| m A | Normal operation, no faults, no alarms. Inclusive of 2-wire signal loop current | Energised | De-energised | 1.8W ² |
| mA | All alarms, no faults. Inclusive of 2-wire signal loop current | Energised | Energised | $3.0W^{2}$ |

 $^{^{1}}$ includes power to detector $^{-2}$ excludes power to 3 wire mA detector. All controllers with default configuration.

Technical Summary

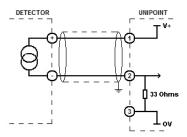

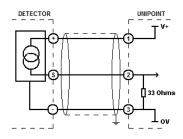

Detector Wiring Schematics

3 wire mV (e.g. Signalpoint and Sensepoint Flammable)

2 wire mA (e.g. Signalpoint and Sensepoint Toxic and Oxygen)

3 wire mA (e.g Sensepoint XCD all versions)

| General Specification | | | | | | | |
|---------------------------|---|--|---|---|--|---|--|
| Use | The Unipoint controller provides integrators with a flexible and low cost solution to the many applications requiring flammable, toxic or Oxygen gas detection to be incorporated into their control systems. Unipoint is designed to use industry standard DIN rail allowing it to be easily installed into many different types of plastic or metal, indoor or outdoor, hazardous or non-hazardous area enclosures. It is designed for use with any mV flammable gas detector as well as any 2 or 3 wire 4-20mA gas detector (subject to overall power requirements). | | | | | | |
| User Interface | | | | | | | |
| Operation | Two pushbuttons for normal operation of resetting alarms and initiating self diagnostic test of system. Four buttons for user programmable functions via intuitive menu | | | | | | |
| Backlit Display | Units of measure, digi | tal gas rea | iding and ever | nt code | | | |
| Other Indication | Ultra-bright steady / fl In-built audible alarm | Ultra-bright steady / flashing LEDs subject to condition; alarm (red), power (green), fault (amber). In-built audible alarm 63db at 0.3 meters | | | | | |
| Termination | Easily accessible plug in screw type terminals. Terminals accept maximum wire diameter 1.5mm² (16 AWG) | | | | | | |
| Environmental | | | | | | | |
| IP Rating | Indoor, IP3x, to BS EN | 60529:19 | 992 (controller | to be installed | in suitabl | le enclosure) | |

Our Product Range

Fixed Gas Monitoring

Honeywell Analytics offers a wide range of fixed gas detection solutions for a diverse array of industries and applications including: Commercial properties, industrial applications, semiconductor manufacturers, energy plants and petrochemical sites.

- Detection of flammable, oxygen and toxic gases (including exotics)
- » Innovative use of 4 core sensing technologies – paper tape, electrochemical cell, catalytic bead and infrared
- Capability to detect down to Parts Per Billion (ppb) or Percent by Volume (%v/v)
- Cost effective regulatory compliance solutions

Portable Gas Monitoring

When it comes to personal protection from gas hazards, Honeywell Analytics has a wide range of reliable solutions ideally suited for use in confined or enclosed spaces.

These include:

- Detection of flammable, oxygen and toxic gases
- Single gas personal monitors worn by the individual
- » Multi-gas portable gas monitors used for confined space entry and regulatory compliance
- » Multi-gas transportable monitors used for temporary protection of area during site construction and maintenance activities

Technical Services

At Honeywell Analytics, we believe in the value of great service and customer care. Our key commitment is providing complete and total customer satisfaction. Here are just a few of the services we can offer:

- >> Full technical support
- Expert team on hand to answer questions and queries
- Fully equipped workshops to ensure quick turnaround on repairs
- Comprehensive service engineer network
- » Training on product use and maintenance
- » Mobile calibration service
- Customised programmes of preventative/corrective maintenance
- Extended warranties on products
